And Examine the World-Renowned HOWE SEWING MACHINE.  
The First and Best in the World.  
ITS beauty and excellence of stitch, being alike on both sides; its new rotary motion and an automatic self-regulating take-up that prevents missing of stitches in crossing all seams; for the upper-thread, and its perfectly uniform tension in the shuttle, from a full to an empty bobbin, gives complete control over both threads; its economy of thread beyond that of any other machine; its sewing the finest fabrics without injury or pucker, and then passing to the heaviest material without a change of tension thread or needle, and with the greatest ease; its simplicity, durability, and ease of management; its running with less noise and greater ease than any other Shuttle Machine; its peculiar qualities, and should recommend it to all in want of a first-class sewing machine.  
An accomplished operator always in attendance. Agents Wanted.
